About Riverstone

We are a small non-denominational church meeting in the lunch room of Garrod Hydraulics. In this unique setting, we are “simple yet sincere” in our Sunday gatherings. We are not limited to one style of music—we regularly include hymns, new songs, and contemporary Christian worship music from the past few decades.

Riverstone’s Goal for this Position

Currently our pastor leads worship as he is able. We are seeking a Christian musician to alleviate the burden on him and provide stronger, more meaningful worship through song in preparation for and response to the proclamation of God’s Word. As a young church, we believe this is an important next step in fulfilling our mission of loving people, introducing them to Jesus, and helping them know Him better.
